Mixing & Scalping Tank

MCT-1000 HVU EX

MCS-1000EX 2 Tank System

Our company is growing rapidly due to the reputation we are earning in the land based and offshore oil drilling industries.

The staff at Mud Technology has many years of combined experience in the field of pumping, handling, moving, cleaning and mixing drill fluid. We can also custom manufacture equipment for specialty applications.

Our units are designed to be self-contained, quiet, efficient and reliable.

We offer the best mud handling systems on the market today. These units have been tested in one of the hardest test facilities around- THE REAL WORLD, and survived.

Custom Manufacturing

Our engineering staff can design or modify any one of our units to meet your specific needs.

Shakers

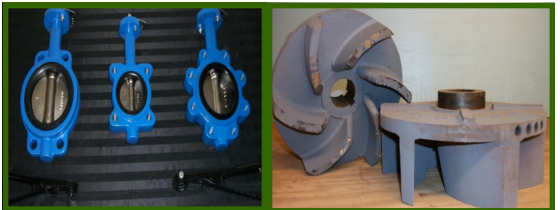

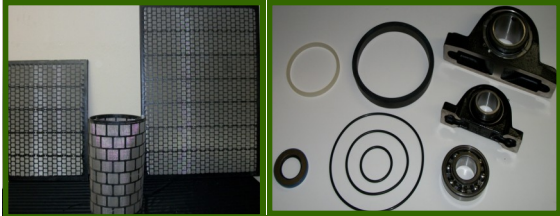

MTP-475 Auxiliary Mud

Poor Boy Degasser Gas Buster

Parts and Accessories

We service what we sell. That means full parts and accessory support for our customers, worldwide. We also supply parts & accessories for other brands of systems as well. Our pricing is always competitive, so be sure to check with us before buying anywhere else.
